Tracker List

CTS records operations performed in the last 7 days. For operations more than 7 days old, create a tracker. The tracker will continuously store traces to your specified stream or OBS bucket.

Select a property or enter a keyword.

Tracker ...	Status	Trace Ty...	Organizatio...	OBS Bu...	Storage	Created	Operation
-------------	--------	-------------	----------------	-----------	---------	---------	-----------

No tracker available.

You can click the following button to create a tracker.
